January 2016 – November 2019

Kenya Certificate of Primary Education (KCPE)

Kawamaitha Primary School — 282 Marks

January 2007 – November 2015

PROFESSIONAL QUALIFICATIONS

Certificate in Artificial Intelligence

IBM SkillsBuild

March – April 2025

- Gained foundational knowledge in AI concepts, machine learning, and real-world applications in business environments.

Certificate in Cybersecurity

IBM SkillsBuild

November – December 2024

- Acquired skills in network security, threat detection, risk management, and cybersecurity best practices.

WORK HISTORY

Field Attachment – County Sacco Ltd

May 2025 – August 2025

- Delivered financial literacy training using digital presentation tools and data-driven materials to enhance member understanding of Sacco products and services.
- Supported loan processing by capturing, verifying, and updating member information in digital information systems, ensuring data accuracy and integrity.
- Assisted in maintaining and optimizing digital record management systems, improving data organization, accessibility, and retrieval efficiency.
- Participated in data collection, analysis, and preparation of financial reports using spreadsheet applications to support informed decision-making.
- Monitored loan performance by analyzing system-generated reports and tracking repayment trends.
- Engaged in community outreach programs using digital communication channels to mobilize and onboard new members.
- Managed documentation workflows, ensuring secure storage, proper indexing, and efficient retrieval of member records.
- Provided basic ICT support by assisting with system access issues, document processing, and office technology operations.

Volunteer Web Developer – UoEm Google Developer Student Club

January 2023 – April 2025

- Collaborated with a development team to design, develop, and maintain the GDSC UoEM website using HTML, CSS, JavaScript, and React.
- Implemented responsive web design principles to ensure optimal usability and performance across mobile, tablet, and desktop devices.
- Supported content integration and website management processes to improve user experience and system functionality.
- Participated in testing, debugging, and performance optimization to ensure system reliability and smooth user interaction.
- Utilized Git version control to manage code collaboration, track changes, and maintain development efficiency and code integrity.

INTERESTS

- Contributing to open-source projects and engaging in collaborative software development environments.
- Exploring and keeping up with emerging trends in software development, cybersecurity, and data analytics.
- Engaging with professional tech communities such as the Google Developer Clubs to expand technical knowledge and industry exposure.
